

MSA Safety Announces Divestiture of its Subsidiary Holding Legacy Liabilities

Jan 05, 2023

Simplifies Balance Sheet and Strengthens Cash Flow Profile

Positions MSA Safety for Long-term Growth and Profitability

Investor Conference Call on January 6, 2023 at 8:30 Eastern Time

PITTSBURGH, Jan. 5, 2023 /PRNewswire/ -- Global safety equipment manufacturer MSA Safety Incorporated ("MSA Safety" or the "Company") (NYSE: MSA) today announced that it has divested a wholly owned subsidiary that holds legacy product liability claims relating to coal dust, asbestos, silica, and other exposures, to a joint venture between R&Q Insurance Holdings Ltd. ("R&Q") and Obra Capital, Inc. ("Obra"). In connection with the closing, MSA Safety contributed \$341 million in cash and cash equivalents, while R&Q and Obra contributed an additional \$35 million.

As a result of the transaction, MSA Safety has removed all legacy cumulative trauma product liability reserves, related insurance assets, and associated deferred tax assets of the divested subsidiary from its balance sheet. R&Q and Obra have assumed management of the divested subsidiary, including the management of its claims.

Nish Vartanian, MSA Safety Chairman, President, and Chief Executive Officer said, "We are pleased to complete the sale of this subsidiary to R&Q and Obra, trusted specialist partners with proven track records of managing legacy matters. This important action enables greater focus on

MSA's future growth, profitability, and continued strong return of value to our shareholders. The completion of this transaction allows us to do more of what we do best – developing and manufacturing innovative safety technologies and protecting the world's workers."

Lee McChesney, MSA Safety Senior Vice President and Chief Financial Officer added, "This transaction enhances predictability in the cash flows of our business and reduces our risk profile. Our balance sheet remains strong, and we are confident in our ability to delever within 12 to 18 months while maintaining our current dividend policy."

Strategic and Financial Benefits

- **Reduces Business Risk:** The divested subsidiary carried exposure to cumulative trauma product liability claims. The divestiture reduces MSA Safety's risk profile, as these claims were subject to inherent risks and uncertainties.
- **Simplifies Balance Sheet and Enhances Cash Flow Predictability:** The transaction meaningfully simplifies the balance sheet and enhances future free cash flow predictability by eliminating costs associated with defending and settling the transferred claims, providing greater flexibility in MSA Safety's capital planning process. MSA Safety plans to use its cash flow for near-term deleveraging, as well as reinvestment in organic and inorganic growth initiatives.
- **Allows for Greater Focus on Future Growth:** By eliminating the potential expenses and complexities of non-operating legacy liabilities, the transaction allows MSA Safety to focus on delivering steady, reliable, and profitable growth through its leading safety technologies that help protect people and facility infrastructures.

Transaction Terms and Financing

Under the terms of the agreement, MSA Safety sold 100% of the equity of the divested subsidiary to a joint venture between R&Q and Obra. In connection with the closing, the parties contributed a total of \$376 million in cash and cash equivalents. MSA Safety contributed \$341 million, and the joint venture contributed an additional \$35 million. MSA Safety financed its contribution through available cash and borrowings, including a new \$250 million term loan facility. Pro forma for the transaction as of September 30, 2022, MSA Safety's Net Debt to Adjusted EBITDA is 2.4x.

The transaction closed on January 5, 2023. MSA Safety expects the transaction to be recognized in its first quarter 2023 results.
