

## **/CORRECTION -- Mine Safety Appliances Company/**

Jun 29,2004

In the news release, MSA Secures \$26 Million Army Contract for Protective Helmets, issued earlier today by Mine Safety Appliances Company (Amex: MSA) over PR Newswire, we are advised by the company that the second paragraph, first sentence should read "'We're very proud of the fact that the U.S. military has embraced the ACH in such a positive way,' said Ron Herring, Jr., Vice President and General Manager of MSA's Safety Products Division" rather than "Mr. Herring said" as originally issued inadvertently.
