MSA Announces Record Fourth Quarter Results

Strength in core products drives record quarterly sales and earnings

PITTSBURGH, February 16, 2015 - Global safety equipment manufacturer MSA Safety Incorporated (NYSE: MSA) today reported results for the fourth quarter and full year of 2014.

Quarterly Highlights

- Revenue was a record \$311 million, up 7 percent from the fourth quarter of 2013. Income from continuing
 operations was a record \$33 million or \$0.88 per basic share. Adjusted earnings were a record \$35 million, or
 \$0.94 per basic share, increasing 24 percent.
- Quarterly local currency revenue from core product lines increased 13 percent, driven by strong shipping activity across all core product categories.
- Operating margin of 16.4 percent of sales reflects a 220 basis point increase from a year ago.
- Free cash flow was \$47 million or 143 percent of net income, increasing 31 percent compared to the same quarter a year ago.

Annual Highlights

- Revenue was \$1.1 billion, up 2 percent from 2013. Income from continuing operations was \$87 million or \$2.34 per basic share. Adjusted earnings were \$95 million, or \$2.55 per basic share, decreasing 1 percent compared to a year ago.
- Local currency revenue from core product lines increased 8 percent excluding sales of self-contained breathing apparatus (SCBA), which were hampered for most of the year by regulatory delays in the U.S.
- Free cash flow of \$73 million, or 83 percent of net income, helped to fund further reductions in long-term debt and dividend payments to shareholders.

Comments from Management

"Our fourth quarter reflected a very strong finish to what turned out to be a most challenging year," said William M. Lambert, MSA President and CEO. "In addition to clearing certification hurdles and beginning shipments of our new and revolutionary G1 SCBA to the fire service market, we recognized solid growth in our core products and drove record earnings in the quarter."

Sales of core products represented 74 percent of total revenue in the quarter and increased 13 percent compared to the same period a year ago. "While a higher level of large fixed gas and flame detection orders was a leader of growth in the quarter, we saw strong shipment activity across each of our core product categories," Mr. Lambert said. He also commented on MSA's continued success in introducing innovative new core products, explaining that 36 percent of quarterly core sales were from products developed within the last five years.

"While our fourth quarter results and a robust SCBA backlog certainly provide momentum as we transition into 2015, headwinds associated with weakness in commodity- based end markets, a stronger U.S. dollar and challenging conditions across key emerging markets somewhat temper my optimism moving forward," Mr. Lambert said. "As we conclude our centennial year in business and turn our attention to the next chapter of MSA's story, we will maintain our long-standing commitment to driving profitable growth and increasing shareholder value, even as we navigate through inevitable periods of uncertainty," Mr. Lambert concluded.

MSA's sales are allocated to each country based primarily on the destination of the end-customer. Effective January 1, 2014, the General Monitors business has been fully integrated into MSA. As such, sales made by General Monitors companies now follow a similar allocation methodology by which sales are allocated to each country based on the destination of the end-customer and the value added to that order. In prior years, sales made by General Monitors companies were reported as domestic sales based on the country from which the product was shipped. The 2013 results presented above have been restated to reflect this change in allocation methodology.

Adjusted earnings per basic share	\$ 0.9)4	\$ 0.76	23.7%	\$	2.55	\$ 2.57	(0.8)%

Management believes that adjusted earnings and adjusted earnings per share are useful measures for investors when analyzing ongoing operating trends. There can be no assurances that additional special items will not occur in future periods, nor that MSA's definition of adjusted earnings is consistent with that of other companies. As such, management believes that it is appropriate to consider both net income determined on a GAAP basis as well as adjusted earnings.

MSA Safety Incorporated Reconciliation of As Reported Financial Measures to Non-GAAP Financial Measures Free Cash Flow (Unaudited) (In thousands)

	 Three Months Ended December 31,			Twelve Months Ended December 31,			
	 2014 2013		2013	2014			2013
Cash from operations	\$ 56,229	\$	46,075	\$	107,031	\$	110,781
Capital expenditures	 (9,350)		(10,303)		(33,583))	(36,517)
Free cash flow	 46,879		35,772		73,448		74,264

Management believes that free cash flow is a meaningful measure for investors, as management reviews cash from operations after deducting capital expenditures because these expenditures are necessary to promote growth of MSA's business and are likely to produce cash from operations in future periods. It is important to note that free cash flow does not reflect the residual cash balance of the company for discretionary spending since other items, including debt and dividend payments, are deducted from free cash flow before arriving at the company's ending cash balance.

About MSA:

Established in 1914, MSA Safety Incorporated is the global leader in the development, manufacture and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive line of products is used by workers around the world in a broad range of markets, including the oil, gas and petrochemical industry, the fire service, the construction industry, mining, and the military. The company's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, head protection products and fall protection devices. With 2014 revenues of \$1.1 billion, MSA employs approximately 5,000 people worldwide. The company is headquartered north of Pittsburgh in Cranberry Township, Pa., and has manufacturing operations in the United States, Europe, Asia and Latin America. With more than 40 international locations, MSA realizes approximately half of its revenue from outside North America. For more information, visit MSA's website at www.MSAsafety.com.

Cautionary Statement Regarding Forward-Looking Statements:

Except for historical information, certain matters discussed in this press release may be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include but are not limited to all projections and anticipated levels of future performance. Forward looking statements involve risks, uncertainties and other factors that may cause our actual results to differ materially from those discussed herein. Any number of factors could cause actual results to differ materially from projections or forward looking statements, including without limitation global economic conditions, spending patterns of government agencies, competitive pressures, product liability claims, the success of new product introductions, foreign exchange rate fluctuations and the risks of doing business in foreign countries. A full listing of these risks, uncertainties and other factors are detailed from time-to-time in our filings with the United States Securities and Exchange Commission ("SEC"), including our most recent Form 10-K filed on February 24, 2014. You are strongly urged to review all such filings for a more detailed discussion of such risks and uncertainties. MSA's SEC filings are readily obtainable at no charge at www.sec.gov, as well as on its own investor relations website at http://investors.MSAsafety.com. MSA undertakes no duty to publicly update any forward looking statements contained herein, except as required by law.

Non-GAAP Financial Measures:

This earnings release includes certain non-GAAP financial measures. These financial measures include adjusted earnings, adjusted earnings per basic share and free cash flow. The presentation of these financial measures does not comply with U.S. generally accepted accounting principles ("GAAP"). For an explanation of these measures, together with a reconciliation to the most directly comparable GAAP financial measure, see the Reconciliation of As Reported Financial Measures to Non-GAAP Financial Measures in the financial tables section above.
